- B. The Broadmoor Seven Falls WW Holding Tanks – Joe Goode, Entech Engineering:**
This site application was reviewed and recommended for approval by the SARC and WQMC at their respective meetings on 5 and 28 June. During the 28 June Citizens Advisory Committee (CAC) monthly meeting, the Committee voted 6 to 7 not recommending that the site application for new wastewater holding tanks be heard and approved by the PPACG Board of Directors (BOD) at their July meeting. CAC member comments directly concerning the site application review criteria set by CDPHE have been addressed by the consulting engineer, Entech Engineering. Additional comments by CAC members were non-technical in nature and were also addressed by the consulting engineer prior to going before the PPACG BOD

at their monthly meeting on 12 July. At that meeting the BOD requested this site application be re-heard by WQMC and CAC at their monthly meetings in July.
