

**Pikes Peak Area Council of Governments (PPACG)  
2050 Long Range Transportation Plan Public Survey**

Thank you for assisting PPACG plan for the future of transportation in the region. One of the PPACG's core planning documents is the Long Range Transportation Plan (LRTP), a prioritized list of transportation infrastructure projects for the region.

The PPACG is collecting public input to help shape the 2050 LRTP. The PPACG hopes to understand your regional transportation preferences to determine the highest priorities for transportation improvements.

This survey is open until Thursday, September 7, 2023. If you have questions, contact Danelle Miller, PPACG Senior Transportation Planner at [dmiller@ppacg.org](mailto:dmiller@ppacg.org).

1. What is your home zip code? \_\_\_\_\_

2. What do you think a high-functioning transportation system looks like? \_\_\_\_\_

\_\_\_\_\_

3. Select the transportation modes you use in a typical week to move around the region. *Circle all that apply.*

- |  |                                  |
|--|----------------------------------|
| a. Bike                                      | e. Transit/bus                   |
| b. Carpool                                   | f. Vanpool                       |
| c. Drive Alone                               | g. Walk                          |
| d. Shared Vehicle (rideshare, taxi, shuttle) | h. Other (please specify): _____ |

4. How long is your commute between home, work and/or school, or the place that you travel to the most? *Circle one.*

- |                          |                       |
|--------------------------|-----------------------|
| a. Fewer than 10 minutes | d. 40 to 60 minutes   |
| b. 10 to 20 minutes      | e. 60 or more minutes |
| c. 20 to 40 minutes      |                       |

5. If you don't currently, or rarely, use public transit, what would encourage you to use transit more? *Circle one.*

- |  |  |
|--|--|
| a. Shorter wait times/more frequency of service      | e. Improved accessibility for people living with physical challenges |
| b. Expanded areas with bus service/more destinations | f. Improve safety on buses and at stops/stations                     |
| c. Improved/more attractive bus stops and stations   | g. Other (please specify): _____                                     |
| d. Faster bus service/more express routes            |  |

6. How likely would you be to use the following options if each were available, convenient, safe, and low stress?

Mode	Extremely Likely	Likely	Neutral	Unlikely	Extremely Unlikely
Bike					
Carpool					
Scooter					
On demand transit					
Shared vehicle (rideshare, taxi, shuttle)					
Transit/bus					
Vanpool (shared van for commuters)					
Walk					

Mode	Extremely Likely	Likely	Neutral	Unlikely	Extremely Unlikely
Other (please specify):					

7. Do you feel like transportation conditions have improved or worsened over the last five years? *Circle one.*

- a. Improved greatly
- b. Somewhat improved
- c. Stayed the same
- d. Worsened slightly
- e. Worsened significantly
- f. Uncertain

8. Why did you answer the way you did? \_\_\_\_\_  
 \_\_\_\_\_

9. What are the transportation problems that you are most concerned with? *Circle all that apply.*

- a. Lack of biking/walking options (bike lanes, trails, sidewalks, crosswalks, etc.)
- b. Lack of public transit coverage (bus, streetcar/light rail, etc.)
- c. Lack of public transit frequency (bus, streetcar/light rail, etc.)
- d. Poor roadway pavement condition
- e. Rising transportation costs (tolls, fuel costs, transit fares, parking costs, etc.)
- f. Roadway safety (speeding, red light running, accidents, etc.)
- g. Traffic congestion
- h. Health impact from lack of active transportation options
- i. Transportation air pollution
- j. Other (please specify) \_\_\_\_\_

10. What are the top three ways you feel the region should address long-term mobility and traffic congestion? *Circle three.*

- a. Adding turn lanes at intersections
- b. Coordinating traffic signals
- c. More roadways/expanding roads and highways
- d. Expanding public transit (bus, streetcar/light rail, etc.)
- e. Improving carpooling, vanpooling, employer trip reduction programs, and ridesharing
- f. Better land use planning and transportation planning
- g. Improving traveler information (electronic message signs, 511, highway advisory, radio, etc.)
- h. Increasing dedicated stable funding sources for transportation
- i. Establishing passenger rail service to Denver and Pueblo
- j. Providing more biking and walking facilities
- k. Reducing the time to clear auto crashes
- l. Other (please specify) \_\_\_\_\_

11. Rank the transportation projects you would like to see prioritized in the region over the next 20 years. *1 is the highest priority, 10 is the least priority.*

- |  |  |
|--|--|
| _____ Roadway improvements (e.g., turn lanes, traffic signals)                                     | _____ Improved and expanded local and regional bus service |
| _____ Improved traveler information (e.g., electronic message signs, 511, highway advisory, radio) | _____ More pedestrian trails and sidewalks corridors       |
| _____ New or improved sidewalks/crosswalks   | _____ More bicycle lanes/bike paths                        |
| _____ New passenger train service to Denver/Pueblo   | _____ Other (please specify) _____                         |
| _____ New light rail or streetcars added along key   |  |
| _____ More roadways and expanded roadways  |  |
